

Presented by:

Thanassis Tsikogias, Data Center Solutions Architect, Schneider Electric Konstantinos Vasileiou, Head of Datacenter & Information Systems Support, Information Society SA

Schneider Electric, the Global Specialist in Energy Management and Automation

€24.7 billion

FY 2016 revenues

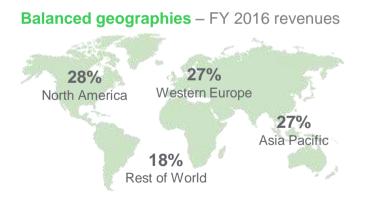

~5%

of FY revenues devoted to R&D

160,000+

people in 100+ countries

Schneider Electric Global Business in Over 100 Countries

^{1:} Published figures in billion € restated to reflect country-market view;

^{2:} Billion € pro-forma basis including LTM Sep 2014 revenue for Invensys

^{3:} Including Invensys, excluding Delixi and Fuji

Schneider Electric commitment to a high investment in technology for innovation

A Technology Company

- c. 11,000 R&D engineers, c. 10,000 application and software engineers
- 20,000 patents active or in application worldwide, >500 filed in 2014
- · With recognized innovations

Recognized highest ranking DCIM solution in Gartner Magic Quadrant (Oct 2014)

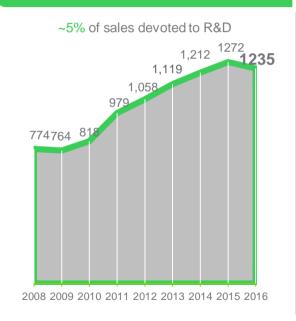

M580: World's first ePAC with built-in ethernet

8

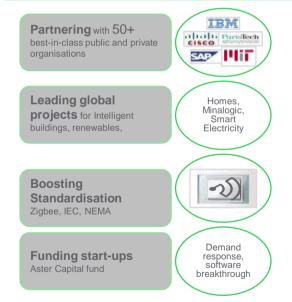

Machine Solution – NEXT Controller Generation

R&D Investment

An Ecosystem for Open Innovation

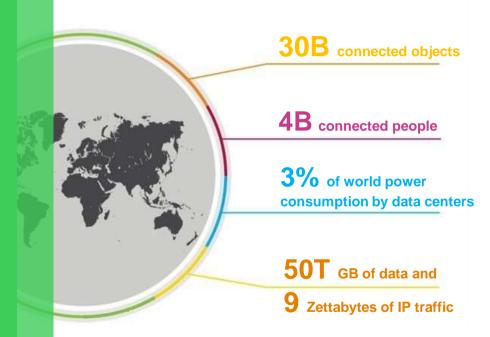

By 2020, the world will be a different place...

...it is undergoing profound transformation to support the enormous data volumes and processing demands that are being generated by the Internet of Things (IoT).

The world in 2020...

Latest evolving key trends in the market

Hybrid architectures of on-premise, off-premise, Public & Private cloud

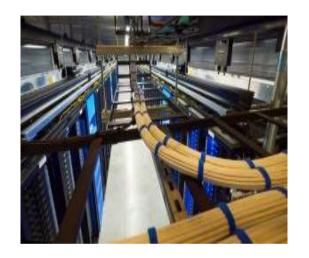

Latency, bandwidth & regulatory demands driving Edge Computing

Simplification in data center Physical IT & infrastructure

Leveraging Data Center Infrastructure Management & Digital Services

Three key challenges to the market

Shift to cloud

Need to increase speed

Addressing the energy challenge

86%

of workloads by 2019 will be processed by cloud data centers; only **14%** will be processed by traditional data centers
