Fully secure real time communications from **Core to Edge**

# VoIP Hacking – It Can Happen to Anyone

Who do you believe should be responsible for protecting your company from UC security issues?

Ribbon UC Market Insights  
Research Study, April 2019

n = 400

87% of Respondent's companies believe the UC Provider should protect them.

## Customer responsibility

Customer Responsibility recognizes the potential for Toll-Fraud and strives to minimize the impact to customers should it occur. Nonetheless, as detailed in Customer Responsibility Terms and Conditions, Customer Responsibility does not bear responsibility for Toll-Fraud. Your company is responsible for securing its phone system and paying for any usage charges that may occur through fraudulent activity.

Thank You
