

The new way of working

# Q & A

## Panel Discussion

## Panelists:

Ismini Mavrogianni | Space Hellas

Alkiviadis Zoupas | Cisco

Frederic Schilton | Mitel

Angelo Gentili | PartnetNet

Akshay John | Ribbon Communications

- What does the future of communications and collaboration look like over the next 3 years?
- What forces will drive this transition?
- What will be the biggest hurdle to overcome?
- What are the steps organizations should take today?
- How big an investment in terms of money and time is it for a company to build an IP Communications Network?

- What about the companies that have already invested big in analog technologies and network infrastructure?
- Is it enough to use your firewall for real-time communications ?
- What are the main functions of a Session Border Controller ?
- What are today's common threats to your VoIP network ?
- What is the Fixed Network Transformation taking place today ?
- How can you offer Session Border Controllers as a service?

The new way of working

# Thank you!

Looking forward to see you at
